

## TRAC / Technical Review Advancement Course General Information

January 2010 - March 2010

Contact: Diana Johnson at 703.927.9882 or [GetonTRAC@usa.com](mailto:GetonTRAC@usa.com)

**About** The ASID Washington Metro Chapter is holding **TRAC / Technical Review Advancement Course**: a comprehensive, technical review study series that prepares candidates to successfully pass the newly revised NCIDQ examination.

**Participation** Recommended for all designers qualified by NCIDQ to sit for the examination. *To check on eligibility status, call NCIDQ at (202) 721-0220.*

**Instructors** A highly-skilled team of instructors will be teaching the course. All team members are accomplished NCIDQ-certified interior designers that have an unparalleled wealth of knowledge and experience to share with participants.

**Course Content** Providing participants with the opportunity to review technical data and practice exams in an interactive environment, this study series affords designers the opportunity to assess their strengths and weaknesses. Through this process, designers can determine which areas may require further preparation.

During the course of eleven (11) sessions, students will address the various topics covered by the NCIDQ exam, with a focus on the exam's two multiple choice sections. The course takes into account the most recent changes to the 2010 exam, and also includes test-taking hints and strategies. *The Interior Design Reference Manual* (fourth edition) by David Ballast, A.I.A. will be utilized as a primary text, along with additional materials created by NCIDQ and other authors. (While some study materials will be provided, purchase of the suggested texts is not included in the registration fee.)

**When** January 12, 2010 - March 23, 2010: Tuesday Evenings  
6:30 pm to 8:30 pm

**Where** The Washington Design Center
